

## WHAT PEOPLE ARE SAYING...

“ We use natural gas for heating, hot water, cooking, and clothes drying. We've had both electric and propane in the past but now we are so happy with our natural gas.

—KIM S. — BURLINGTON

We're saving money every month!

—PATRICIA W. — EAST HAMPTON

It's so much more convenient.

—THERESA T. — OLD SAYBROOK ”

# Heat Smart

— WITH NATURAL GAS —

Affordable + Clean + Convenient

## 10 REASONS TO CONVERT

For more information on natural gas products  
and services call 866-GAS-2888

# TOP 10 REASONS TO MAKE THE SWITCH TO NATURAL GAS

## 1. IT'S EASY ON YOUR BUDGET

Natural gas is affordable. Natural gas companies' rates are regulated and approved by state agencies, making them stable and consistent. And, you pay for only what you use.

## 2. IT'S CLEAN

Natural gas is clean and efficient so you can say goodbye to sooty build-up, and use less fuel with up to 98% efficient equipment.

## 3. IT PROVIDES YOU CONVENIENCE

Natural gas is convenient; it is always there for you. No more deliveries. No more shoveling a path for delivery. No more worrying about running out.

## 4. IT PROVIDES YOU OPTIONS

Natural gas is versatile. It is ideal for space and water heating, cooking, grilling, clothes drying and so much more!

## 5. YOU CAN DEPEND ON IT

Natural gas is in abundant supply. In the event of a power outage, rely on natural gas to fuel a back-up generator.

## 6. IT IS LOW MAINTENANCE

Because natural gas burns cleaner than oil, your maintenance costs for heating equipment and appliances are reduced.

## 7. YOU CAN HAVE CONFIDENCE

More than half of American homes use natural gas and most of it used here is produced in North America.

## 8. IT'S ENVIRONMENTALLY FRIENDLY

You'll reduce your carbon footprint due to fewer harmful emissions than oil.

## 9. IT'S A SPACE SAVER

Since there's no fuel storage tank it frees up that space for other uses and makes the space more attractive.

## 10. IT'S A GOOD INVESTMENT

The availability of natural gas often results in higher resale value of homes.
